

## ÖBB railjet new generation

Actual car numbers are 2- or 3-digit, the last digit corresponds to the car number shown below. E.g. 262 = car 2

Some seats in these plans are blocked out in the booking system for walk-up passengers without reservations.

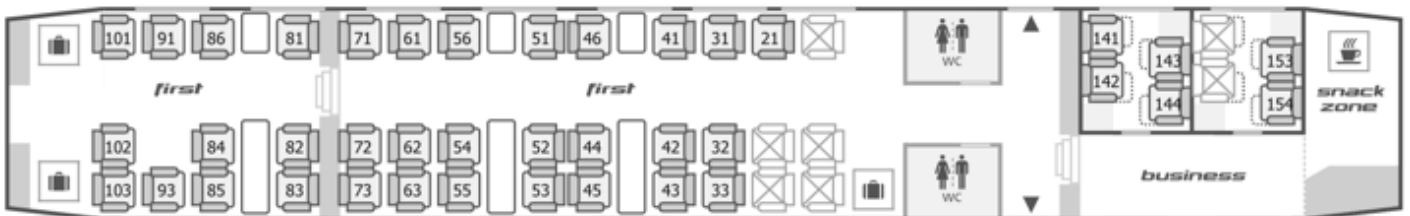

The white rectangles between seats are tables. In new-gen railjets the centre section in cars 2-8 is low-floor, you can see the steps up/down each side of the low-floor section. You may get a better view from higher seats at car ends!

Railjets are push-pull with a locomotive at one end and driving cab at the other, they can run in either direction.
